Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The applicant discussed proposed amendments to help distinguish the claims over prior art. More specifically, he described the "dummy microphone" as being implemented within the body of the apparatus. A number of limitations such as display screen within the housing and attaching the microphone to the body of the apparatus were also discussed.

The applicant discussed possible proposed amendment that focuses on implementing the microphone within the housing unit rather than mounting the microphone on the data cartridge. The proposed amendment appear to distinguish over the prior art of record. No agreement was reached on patentability..
